

How to Create Live Camera Projects

After “Creating a New Project”, you will see this canvas: Video/Image/ Prop, Layers & Tools

1) Add Background to bottom layer 2) “Add the Camera” to 2nd Layer

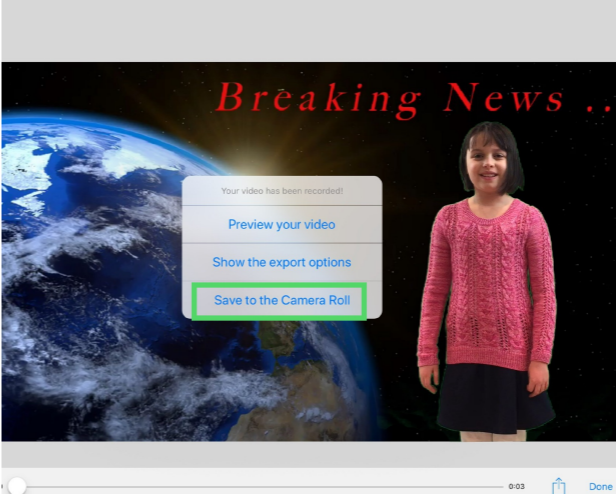

1) Under “Settings” select camera position 2) Tap Red “Record Video” button

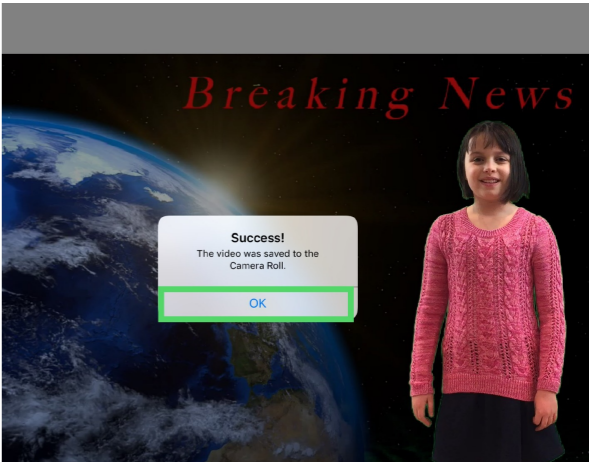

Wait for count down to record

Tap the black square “■” to stop recording

Tap “Save to the Camera Roll”

“Success!” Video is Saved when you tap “OK”
